

Mukul Yadav

B.Tech — ComputerScience — 2027

8890466876 — mukul.yadav.23cse@bmu.edu.in — LinkedIn — github

Portfolio: Portfolio — Engineering Playbook — Blueprint

EDUCATION

BML Munjal University (BMU)	2023 – 2027
<i>B.Tech in Computer Science (Cybersecurity)</i>	CGPA: 6.5
CBSE (Class XII) Science: 82% — CBSE (Class X): 68%	

SKILLS

Languages: C++, Java, JavaScript, TypeScript, Python

Frameworks: React, React Native, NestJS, Node.js, Express, Django, Flask, TensorFlow.js, MediaPipe

Tools: PostgreSQL (Prisma), Supabase, Redis, Docker, Kali Linux, Burp Suite, Nmap, Git

Concepts: OWASP Top 10, Penetration Testing, AppSec, JWT, RBAC, PQC, System Design, DSA

EXPERIENCE

Uptoskills — *Cybersecurity Intern & Team Lead* Jun 2025 – Sep 2025

- **Promoted to Team Lead** to manage intern technical updates and lead onboarding for incoming security recruits.
- Conducted **Penetration Testing** on **Flipkart** web modules, identifying vulnerabilities like **SQLi**, **XSS**, and **IDOR** using OWASP Top 10 standards.
- Utilized **Burp Suite**, **Nmap**, and **Kali Linux** for manual reconnaissance, payload crafting, and endpoint discovery to expose business logic flaws.
- Authored **Security Assessment Reports** detailing root cause analysis and remediation strategies for developer patching.

PROJECTS

VulnForge – Autonomous Offensive Security Platform GitHub

- Engineered an AI-orchestrated platform using **Playwright** for autonomous discovery and exploitation of web vulnerabilities via dynamic crawling.
- Designed an **Adaptive Mutation Engine** to evolve payloads dynamically, successfully bypassing modern Web Application Firewalls (WAFs).

Aether – AI-Powered Life Coach (Production Ready) GitHub

- Architected a full-stack mobile app with a **NestJS** backend and **14 Prisma models**, featuring GPS tracking and camera-verified challenges.
- Built an **AI Journaling engine** using Gemini 2.0 to transform freeform logs into structured hourly tables and SMART goal trees.

ACHIEVEMENTS & RESPONSIBILITIES

- **Hackathon Winner:** HACK KRMU 5.0 (Developed a working prototype within 24 hours among 200+ teams).
- **Certifications:** Google Cybersecurity Professional, IBM Cybersecurity Specialist, ISC2 Certified in Cybersecurity (CC).
- **Leadership:** Organized University MUN with 200+ participants.
