

3 Courses

IoT Security: Interface and
Data Security

IoT Security: Access Control
and Network Security

IoT Security: Privacy,
Software, and Physical
Security

Mar 9, 2026

Mukul Yadav

has successfully completed the online Specialization

Internet of Things (IoT) Security (Exam ITS-110)

In this Specialization, you implemented protections for IoT devices and supporting networks using a variety of security techniques—techniques that are designed to defend against real-world attacks.

CEO, Logical Operations

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
